Beach Driving Rules for ***LONG BEACH PENINSULA AREA***

All types of beach activity must be considered by the Washington State Parks and Recreation Commission in its management of this valuable resource. Where conflicts exist between various user groups, or where some form of recreational activity represents a threat to the beach ecology, appropriate regulations have been designed to provide, as equitably as possible, for the needs of all concerned.

In 1988 Legislature amended the Seashore Conservation Area Act adopting RCW 43.51.685-765. This law set aside at least 40% of each beach (North Beach, South Beach and Long Beach Peninsula areas) for "pedestrian use" from April 15th to the day after Labor Day of each year. Pedestrian use means any use that does not involve a motorized use. These pedestrian areas are listed below and shown on the map on the reverse side. For complete rules designating the use of the Ocean Beaches, see Chapter 352-37 WAC.

Pedestrian Use Only Areas:

1. **Leadbetter Point Exclusive Pedestrian/Non-Motorized Vehicle Use Area** is described as the area from the northern tip of Leadbetter Point to the north side of the Oysterville beach access road.
 - (A) Motor vehicles are not allowed year round in the area located between the northern tip of Leadbetter Point and the southern boundary of Leadbetter Point State Park.
 - (B) Motor vehicles are not allowed in the area located between the southern boundary of Leadbetter Point State Park to the north side of the Oysterville beach access road from April 15th to the day following Labor Day of the same year.
2. **Long Beach/Seaview Exclusive Pedestrian Use Only Area** is described as the area from the south side of the Bolstad Avenue beach access road south to the north side of the Seaview beach access road at 38th Avenue.
 - (A) Motor vehicles are not allowed from April 15th to the day following Labor Day of the same year.
3. **Ft. Canby Unit Exclusive Pedestrian/Non-Motorized Use Only Area** is described as that area from the north jetty of the Columbia River located in Ft. Canby State Park to the North Head/south boundary of Beard's Hollow State Park.
 - (A) Motor vehicles are not allowed on Benson Beach in front of Ft. Canby State Park for the entire year. Motor vehicles may not be used on the beach in front of the State Park for any recreational clam season at any time of the year.

Unless posted otherwise, motor vehicles may be used in the "Pedestrian Use Only" area during any recreational razor clam season.

Enjoy, protect and preserve your Ocean Beaches
